

I remember when...

I remember learning chess...

Kings, queens, rooks, and knights,

Winning, pinning, checking,

Why did I lose?

I remember Rubik's Cubes...

Turning, twisting, solving,

All the colours reunite

Why is it so complex?

I remember grade 1 math...

Adding, subtracting, equations,

Numbers together in a formula,

Why is it so easy?

I remember kindergarten field trips...

On a bus with a tour guide,

Chaperones helping the entire class,

Where are the field trips now?

Pranish
