

## Far Far Away

The day was perfect to admire. You & me were perfect be together.  
The time was supporting us. Your heart were touching my heart.  
Your all eyes were looking my eyes.

It was so perfect like you and me. Unless we have a short time to do.  
Winds were perfect heading to east. The music you play was good.  
I can fly into the sky swim into the mist.

The music will take me far and guide. Far where we just can reach.  
Won't be light, but twinkling star. You a crescent moon me a Venus.  
I like to taste your lips between mine.

I hold you tight beneath my arm. I will let you fold me in your eyes.  
I want to fly away forever and ever. Far, far away nobody ever been.  
Far, far away nobody ever seen.
